RE: Docket No: 00P-1211/CP1

Commissioner Henney;

I am writing to you to ask for your support of Docket No: 00P-1211/CPI, which would require testing & identification of genetically altered foods.

All of Europe will not except our GMO food. The only reason 3rd world countries will except our GMO food is because they are starving to death! (No thanks to America), and the only reason Americans will except GMO food is because our government keeps the masses stupified by television prozac, and some unatainable materialistic dream.

We as humans and AMERICANS have the right to know what we are injesting. Test our food before it kills us.

Thank you,

C1085
