5-2-00

I support mandatory
labelling of all genetically
engineered foods.

'00 JUN 16 A11:51

Please implement such
legislation as will assure
this end, and the
right to know what you,
and we, the public, are
getting in our food, and
the right to choose it or
not. Let Democracy work —
let the public exercise in-
formed consent — or not — not mon-
opolistic business or the dollar. →
