P.S.

I am also writing in support of Docket # 00P-1211/ CP1, FDA Docket Management Branch HFA-305 to require testing and labeling of all genetically engineered foods or ingredients.

Not to do so would be irresponsible in the extreme which I'm sure is not your intent.

Sincerely,
June Thompson

Dear Commissioner Henney,

I would like to express my opposition to the administration's decision not to disclose genetically engineered ingredients on food labels.

Truthful labeling is the least the FDA can do to protect consumers. Surely a truly independent agency would actively prevent bioengineering. To

00P-1211 C
