Dear Commissioner Jane Henney,

I am writing this letter in regards to Docket NO. 00P-1211/CP1 and Docket NO. 99N-4282. I would like to see that all genetically engineered foods be labeled. For independently verified safety testing on all G.E. foods. I am concerned that the genetically engineered foods could create new toxins, contribute to the antibiotic resistance, allergic reactions and other dietary risks for consumers and therefore should not be generally recognized as safe.

From a environmentally concerned consumer,

Stella B. CARSON
