Docket # 00P-1211 /CP 225 '00 JUN 23 A9:56

Dear Commissioner Henney,

On March 21, 2000, Greenpeace & a coalition of over 50 family farm, consumer and environmental groups joined the Center for Food Safety in a petition to the FDA demanding the development of a thorough pre-market & environmental testing regime for genetically engineered foods and mandatory labeling of such foods. I am writing for submission to the official rulemaking docket (#00P-1211/CP1) in support of that action.

We have an absolute right to know what is in the food we are purchasing, as well as how it was produced. Scientists & doctors have warned that these crops may have unexpected side-effects in the diet & environment, and there is no evidence that these foods are safe in the long-run.

Sincerely
Shirley Fairclotth
