RE: Docket No. 00P-1211/CP1
FDA Dockets Management Branch
(HFA-305)
5630 Fishers Lane, Room 1061
Rockville MD 20852

Dear Dr. Henney:

I believe that genetically engineered foods, food ingredients, or crops should not be allowed in the market unless:

1. independent safety testing demonstrates they have no harmful effects on human health or the environment
2. they are labelled to ~~say~~ ensure that I know what I am buying
3. the biotech corporations that manufacture them are held responsible for any harm.

I ask that the FDA's current policies be changed.
I support the points in Docket # 00P-1211/CP1.

Sincerely,

Carol Cox
