Commissioner Jane Henney
Docket No. 00P-1211/CP1
F.D.A. Dockets Management Branch (HFA-305)
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear Commissioner:

I want Genetically Engineered Foods Tested and Labeled and a Moratorium Imposed until they are proven safe. The impact on human health or the environment of Genetically Engineered foods is largely unknown. G.E is far from grafting one type of potato with another potato! Putting all kinds of genes from animals into plant is way over our human heads. This half thought out method of supposedly making food better needs far more research than we are probably capable of. The repercussions of cross species mixing is really not C6D1

00P 1211

something we can even anticipate.
If the F.D.A. is so short sighted
to think enough testing has been
done with G.E. foods perhaps
it is because Monsanto & other bio tech
companies have more affect on
the F.D.A. than they should. You
have the very life of this planet in
your hands this is an awesome
responsibility - a farm planting
G.E. seeds will eventually affect
every aspect of life on the planet;
as the air over you today will be
over an asian farmer on another
day. Our ecosystem is a unit
protect it!!!

Thank You
Sincerely

cc President Clinton
V.P. Al Gore
