Dear FDA

Millions of people rely on the ethics and conscience of the employees of the FDA. Trusting Americans purchase meat and dairy products assuming all is well and safe to consume. How wrong are we? How ignorant? BGH should be banned. I support Docket # 99P-4613. The flags are up. Thumbs down to the growth hormone that sickens cows. Monsanto will have to find an ethical way to make profits. The health of all children should be their concern.
The FDA must act on Docket # 99P-4613. It is in the best interest for us all.

Sincerely,
Darlene Folly

99P 4613

BAN BGH GROWTH HORMONES IN YOUR MILK

IT IS UNHEALTHY
IT IS INHUMANE
