Dear FDA Dockets Management Staff:

1147 '00 APR 26 P2:47

Please act on Docket #99P-4613 to ban the use of genetically engineered Bovine Growth Hormone (BGH) on dairy cows. The use of BGH has been associated with increased health problems in these cows. The probability exists that humans will also experience health problems from ingesting the milk from these cows.

Thank you

Sincerely,

Jean Lauren
