4-14-2000

Dockets Mgmt Branch

Regarding bottled water, please have all show the following on labels if they are in the water:

1. Fluoride
2. arsenic
3. Lead
4. any radioactive material
5. Organic chemicals such as pesticides, herbicides, solvents

In order to make room on the label, protein, fat, and carbohydrate can be elimenated since none is present.

Thank you for anything you can do to make our water safe.

Sincerely,

Moana Marshall
