Docket # OOP-1211/CP1

Dear Commissioner Henney.

5305 00 MAY -4 AM 10:23

I am writing to voice my support for the mandatory labeling of all genetically engineered food & food products. I support organic agriculture, yet it seems that even organically grown foods can be affected by GE crops. I am also concerned that GE foods have not been sufficiently tested to prove their long term safety. Please allow the American people to simply have a choice in this matter! I urge you to support mandatory labeling of all GE food as well as mandatory pre-market safety testing on all GE food. This is an important technology but it should not be taken lightly. More testing, long term testing is needed.

I thank you for your time.

Sincerely,

OOP-1211
