Hearing Aids

Ms. Jane Henney M.D.
Commissioner Food & Drug Adminis.
56 Fishers Lane. Rockville Md 20857

It is my understanding audiologists tried to take away our rights in 1975 and 1993 but failed as the FDA ruled it saw no abuses.

If they try again, I implore you oppose their efforts. as a veteran of WW 2, we fought against - the very thing a few would impose upon many for the benefit of their small group.

Thousands of young men gave their lives so their family and friends could continue to live in a free country - free to make their own choices

I have worn hearing aids for over 20 years and have been completely satisfied - (Guaranteed by the Vendor)

Many older citizens find it difficult meeting current bills and cannot afford to pay a doctor bill plus an exorbitant price charged by most audiologists

Let us try to help the elderly. You too, & all too soon, will be in that group.

Sincerely
Ray U. Hovis
