Jane Henney

It is a shame no
one seem to care what
chemical that is put in
food and animal feed
We eat the meat and
we have problem -
I know a cattle farm
he says when he take
them to market - They
are left there for a
month fed. and given
shots to make them
weight more to get
more money when sold.
Greed It is a shame.
Some give ~~at~~ cancer
to animals and when
we eat them - we

get Cancer. I have Cancer
and I am not allowed to
eat meat - only organic
antibiotics are used to
make animals grow fast.
80% + a petition was signed
by 100 - scientists health
Professional etc asking FDA.
to Ban Subtherapeutic use
for animals - a FDA employee
told me a few years ago -
The Medical Society control
the FDA - (especially on -
Prescription drugs) also
Drug Company - what a
shame - My father died
of Cancer which he develope
from estrogen - Some
Prescription drugs. Cause Cancer. I have
Prog. (also can cause diabetic -
Thank you
