Dear Dr. Henney,

Thank you for all of your efforts in ensuring the health and safety of AMERICANS. I believe that genetically engineered food ingredients or crops should not be allowed on the market unless:

1) Independent safety testing demonstrates they have no harmful effects on human health or the environment,

2.) They are labled to ensure a persons right-to-know,

3.) The biotechnology corporations that manufacture them are held responsible for any harm.

I ask that the FDA's current policies be changed, and I support the points in Docket # OOP-1211/CP1

Sincerely,

Sian Marie
