Dear Ms. Hiner.

I oppose the draft M.O.U. being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

P.S. My compounded medication alleviates symptoms that were previously debilitating, such as depression, sleeplessness, and difficulty concentrating. These specialized drugs, dosages and delivery systems are NOT available from the giant pharmaceutical companies.
