Re: Docket No. 98P-0151/CP I

Gentlemen -

This is to request that you grant Farm Sanctuary's petition to prohibit the slaughter of downed animals.

The treatment of downed animals as outlined in information I have received from Farm Sanctuary organization is disgusting and inhumane. My husband raised and sold cattle during the 30 or more years he farmed and he knew that it was more productive for him to take care of the animals — and if they did die to get rid of them immediately so the healthy cattle would not become sick -

Also I have a son who is a Veterinarian and I cannot understand people who do not have compassion on animals. They have always meant a lot to the welfare of humans since the time this country was first settled.

C3672

98P-0151

Very truly yours — Annie M. Burks
