Re: Docket Number
98 P-0151 Petition

Please give my letter your attention.

The general population in the U.S. must not know about the severe problem of cow downers. Surely no one could favor downed animals possibly getting into the food chain for human consumption. Downed animals should not enter the market place in the first place.

Furthermore the suffering that these animals must endure has to be terrible.

Please stop the downed animal trade now!
