Wash DC 20009

Dear Commissioner,

I am an American Citizen who believes that food is Medicine. I believe in organic foods in that they do not poison the Earth that supports us. Food is for healthy living. I know the Big Agibusiness boys couldn't care less about the health of the people. But please, I'd like to know what's in the foods that I'm buying. I can't always afford to buy organic. I'd at least like to know if my veggies have been tampered by the Mad scientists in the pesticide-American-food-machine. This is my right. C16
Do the right thing & give the people all the facts. Please make labeling of genetically Modified foods Mandatory. - Ashley Brock
