To whom it May Concern

I oppose the Draft Memorandum being proposed by the FDA. In Particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain Medically necessary compounded Medications by limiting the number of prescriptions that can be shipped across State lines from specialized compounding pharmacies. If the large multi-million pharmaceutical houses capture this market, they will force out the individuals who have long known that "one size doesn't fit all" there is not a formulary pharmacy in my area, so I need to purchase out of state. So what is wrong with me doing that? The formulary pharmacies can give me Natural hormones where my local pharmacist can not. So please do not Pass this document and take away our right to buy precriptions where ever we want.
