Dear Ms. Henney:

I am writing to ask that you quickly ban the use of antibiotics to produce more rapid growth in healthy farm animals.

01 JAN 25 AM 10:09

The European Union has already acted in banning the use of growth-promoting antibiotics in animals which then create resistance so that they are no longer useful when sick humans need them.

You are probably under considerable pressure from Monsanto and others not to act, but we need you to do the right thing for the American people. Thank you.

Sincerely,
