Hi Jane Henney!

As a member of the Center for Science in the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. That can leave physicians with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by CSPI.

Could you also make sure all irradiated foods carry a prominent disclosure, in easy-to-read type, on the front of pckgs.?

Thank you
