Dear Commissioner Henney:

As a member of the Center for Science in the Public Interest (CSPI) I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. This can leave physicians with no way to treat life threatening bacterial infections in humans. Thats why I support the petition filed by CSPI. Thank you for your attention to this matter.

Sincerely,

Amy S. Rizzo M.S., R.D., L.D.
