5-20-99

To Whom It May Concern,

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies. One size does not fit all. The pharmaceutical companies are making alot of money. Please, mass marketing does not make the natural hormones nor the correct size, amount etc.. Some of us need.

Sincerely,

Glenda Thompson
