To whom it may concern,

I am writing to you to urge you to grant the petition to prohibit the slaughter of downed animals – docket number 98P-0151/CP1

Please consider:

- Animals too sick to stand should not be allowed to enter the human food chain.
- Downed animals increase the risk of bacterial contamination as well as BSE.
- Downed animals are routinely pushed with tractors or dragged with chains, leading to severe pain and broken bones that go untreated.

Please consider the health of humans + the welfare of the animals. Thank you.

Allyson Wenny
