DOCKET # OOD-1598

Feb. 12, 2001

Dear FDA Commissioner,

Today is Abraham Lincoln's birthday. I am reminded of all that "Honest Abe" stood for. He believed in the best for America and gave his life for it!

What would Abraham Lincoln think of the proposed regulations for genetically engineered food and crops? I think he would be extremely disappointed in the lack of honesty and truthfulness

OOD-1598 (over) C 669

that is in these regulations.

PLEASE, PLEASE, PLEASE
REQUIRE MANDATORY
LABELING!

PLEASE, PLEASE, PLEASE
REQUIRE MANDATORY
SAFETY TESTING!

As an FDA commissioner you hold the health of all Americans and their future in your hands. I strongly disapprove of the proposed regulations. Change them to reflect an honesty that would make Lincoln and all Americans proud.

Sincerely, Rick Wild
