Re: Docket No. 98N-1038 "Irradiation in the Production, Processing, and Handling of Food"

To whom it may concern: I find it appalling that you "folks" in Washington could set in motion the "horror" that awaits the consumer if "treated by/with radiation..... What's next with our nuclear waste....? Don't feed us excuses for useses for your death waste products.... I would like to know if bureacrats ever see mother earth.... We as humans have a right to know how our food is prepared.... Shame on you if you think this is the "wave" of the future..... I will watch for your vote

Sincerely [signature]
