April 23, 2001

I wish to express my support of petition 98P-0151/CP1, Prohibiting the slaughter of downed animals. Not only should the meat of these sick animals not be allowed in the human or animal food chain, but they should also be euthanized humanely to end their suffering. Production of human food need not include what is essentially torture in the process by which downed animals are now typically handled.

Thank you

Misty Callies
