Dear FDA Commissioner,

PLEASE

My family and I feel that all genetically engineered foods should be labeled so that I can choose to not buy them. Also you must insist that GE foods be subject to mandatory pre-market safety testing. And there should be a moritorium on GE foods until long term studies show that they are safe for human health & the environment. Why & what is the RUSH? Please hear my voice on these matters.

Thank you very much.

Sincerely,

Kathryn Schloff
