To the FDA:

I send this letter as a consumer of health care services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In my situation compounded prescriptions were not available to me in my area. Fortunately, I was able through the Women's International Pharmacy to have these compounded for me. My health situation currently depends on these compounded prescriptions. I don't want my rights as a patient taken from me and lose the ability to obtain health care products from a provider

98N-1265

CH962

of my choice. Please -- the MOU must be ammended!

The FDA is an agency of the U.S. Gouvernment that purports to be the "watchdog" for consumer safety. This is NOT a safety issue! As a gouvernmental agency, the F.D.A also has a responsibility to be accountable to the people. Once again, the MOU must be ammended.

Thank you for your consideration.

Sincerely,
Beverly G. Smee
