Commissioner Jane Henney FDA

Dear Commissioner,

Please keep genetically engineered food ingredient, crops and products off the market and out of our food supply! I am not comfortable with using any such products in my family and if it is possible to safe-guard all our food you should see that it is done.

If any genetically engineered food is ever used it should:

- always be labeled
- and manufactures should be held fully responsible for harm.
- be thoroughly tested by independent labs.

Thank you,

Virginia T. Gailey
