2781 '99 MAY -4 P2:40

(Docket No: 98N-1038)

DEAR FOLKS, 4/25/99

I don't know of all the hazards of irradiation, so I'm for labelling that's prominent, conspicuous and permanent.

If I so choose not to purchase irradiated foods I need labelling so I'll be able to differentiate those products from those that are free of radiation.

Best,

Guile Hetter
