RE: Docket # 97N-0074

I write to strongly urge you to ban forced moulting of turkeys and hens. While your reputation for objectivity and concern for human health is questionable (rBGH studies) maybe this could be an exception.

The connection between forced moulting and contamination by salmonella and campylobacter bacteria is overwhelming and well-documented.

Ban this barbaric and totally unnecessary practice and save a few lives — for a change .....

Sincerely,

[redacted]
97N-0074
