Dear Commissioner Henney, 6-26-99

I strongly urge you to adopt well-defined national guidelines concerning rBGH labeling. Especially in light of rapidly rising cancer rates in our country, I feel extremely concerned that our government is not taking action to protect the public from this growth harmone. Europe & Canada have found it to be unsafe. Due to my own concerns about breast cancer I try to avoid products that come from rBGH-treated cows. Thank you for your help.
