Dear Dr. Henney, 7-29-00

I am very concerned over the FDA's regulation of genetically engineered (GE) food. I disagree with the agency's current policies & support instead all the points in docket # 00P-1211 \ CP1.

The public has a right to be informed by mandatory labeling of all GE foods! Give us a CHOICE-until long-term studies show they are safe GE foods should not be offered to the public. Thank you. Sincerely, Anne Benedict
