Docket # 98P-0151/CP1

/29/2000

Dear Food and Drug Admin.,

I have recently been made aware that thousands of sick or crippled farm animals in stockyards all across our country are being treated with the most shocking cruelty. I believe you know the stories well.

I am adding my voice to the thousands across the U.S. who are calling for a stop to the cruel treatment of "downed" farm animals both by their owners and by the stockyards where they are often left to die. As long as they are breathing they can still feel pain, hunger, thirst, cold, heat and fear. No one should have to suffer like this - human or animal.

Please use your authority to put an end to the sale and use of weak, sick, injured or crippled farm
