Dear Commissioner Henney -

I prefer to buy products from cows not treated with rBGH. Without a national Policy on rBGH labeling it is impossible for me to make an informed choice.

I urge to adopt definitive national Guidelines regarding rBGH.

The American public has a right to know what we are putting into our bodies. Without proper legislation we are at the mercy of a corporation acting in the best interest of their business profits not America's health.

Thank you
