To whom it may Concern:

0675 '00 OCT 27 P1:40

For years I have been following the abuse and mistreatment towards our food chain animals. I was disgusted how people hurt these animals and then treat them like dirt on their way to be killed. My understanding is 90% of downed animals can be prevented with better care and handling. How could something like dragging an animal with a chain or pushing an animal with a tractor be allowed, How inhumane!

Please grant our petition and prohibit the slaughter of downed animals docket number-98P-0151/CP1.

How could the approval of any injured or sick animal be allowed in our food chain knowing that disease can easily be spread (BSE or mad cow disease). ASK yourself would you feed yourself or your loved one's sick food.

C 2517

98P-0151 I understand a small percentage of downed animal sent to slaughter worthwhile or break the pockets of these

greedy people.
This world is cruel enough and this cruelty has being going on for years, lets start showing some kindness to all living creatures..

Thanks for your time.
Christine Marino.
