RE: DOCKET # 98P-0151/CP1

DEAR FDA:

Please decide to prohibit the slaughter of 3 dozens of animals. We, the people, shouldn't be eating them. It can't be safe. They're just finding out how unsafe food animals are that aren't downed but have been injected with antibiotics and a lot more. So, downed animals have all that plus whatever disease they now have.

Downed animals are a small percentage of animals slaughtered - but it only takes one to make a lot of people sick and possibly contribute to their deaths. The people, I mean.

It just doesn't make sense to allow downed animals to be slaughtered for food. Please grant the petition to prohibit this (docket # 98P-0151/CP1).

Thank you,
