Dear Dr. Henney,

We are a small group of citizens deeply concerned about what is happening to our Earth, our food, our air, our water!

We believe genetically engineered food ingredients or crops should not be allowed. The FDA's current policies must change - points in Docket # 00P-1211/CP1 are maybe as good as we can do until all humans understand the genuine story, and we begin to understand what it means to live in harmony with natural systems.

For the Earth,
Marian Leonard
Director
