Rockville, MD 20852

Dear Commissioner,

I am writing to state my objection to not having a choice to buy or not to buy genetically engineered foods. I don't have a choice because 70% of the foods packaged for grocery store shelves contain G.E. ingredients, but they are not labeled.

I'm asking that G.E. foods be labeled. I want to avoid them, and ask for a moratorium on new crop planting.

Sincerely,
Helen Tapley
