RE: Docket No. 00P-1211/CP1
RE: Docket No. 99N-4282

Commissioner Jane Henney,

I am a concerned citizen writing to urge you to take the necessary steps to make our food supply here in America safe and sane for generations to come.

I am opposed to the genetic engineering of foods on any level, but feel that if corporations are going to use this technology, the public must be informed.

I urge the FDA to establish safety testing regulations for genetically engineered foods as well as a mandatory labeling system.

Thank You -
