Bad Hare Day

Dear Ms. Henney,

Please ban the use of growth-promoting hormones and anti-biotics in food intended for human consumption.

(Please forgive my penmanship: I am away from my computer this Xmas, & I'm not used to "handwriting".)

I read the article in the Union of Concerned Scientists magazine, Nucleus, (winter-99-00) and am writing because of it.

If Sweden & Denmark can ban them, so can we!

Yours,
Ellen
