Re: Docket No. 00P-1211/CP1

Dear Commissioner Henney:

I am against genetically engineered foods. The FDA needs to require pre-market safety testing. No long-term testing exists to my knowledge to prove the safety of these products.

Mandatory labeling for all GE foods is necessary. I try to read labels and be careful of the foods I eat. I should not be penalized in buying these foods without labeling that it is a GE food.

Sincerely yours,

Patricia Lurie
