Please support Petition 99P-1340/CP1 and declare Calvin Klein's Eternity Eau de Parfum misbranded.

I have been very sensitive to perfumes, fragrances, after shave and chemical odors in general. I have asthmatic and do not attend public functions in general due to this sensitivity. I rarely can enter department stores and malls in general.

Your consideration of this matter is greatly appreciated by allergic persons in general and by me personally.

Sincerely

Adeline Wusich
