Gentlemen, 6482 '00 MAY 11 A10:15 4/28

I am concerned that Genegetically engineered foods are being pushed on us & the implications of the threat to sensitive consumers & the environment that they will have or are having.

I have read of studies that show the benefits that these foods are supposed to give are not there & are, in fact, making things worse.

c368

Please make regulations on
having these foods labeled so
