Lester Crawford
Acting Commissioner
FDA
5600 Fishers Ln.
Rockville, MD 20857

Dear Sir,

I am writing to urge the FDA to make Plan B Emergency Contraception available over the counter without delay and without restriction.

The FDA should follow the strong scientific evidence, unprecedented medical consensus, and the recommendation of the two expert advisory committees which voted in support of the recommendation at the December meeting.

Over the counter access to Plan B would represent a tremendous advance in women's health. I urge swift approval of Plan B's OTC application without further delay.

Respectfully, C1704

Dixie Thompson ARNP-C
