RE: Sugar

Commissioner Henney,
The consumption of added sugar has jumped 25% since 1984, squeezing healthy foods out of the diet. I urge the FDA to establish a "Daily Reference Value" for added sugar of 40 grams and to require labels to disclose how much added sugar a food contains.

Sincerely,

Kathleen A. Wilson — Kathleen A. Wilson — 188 Shewville Rd Mystic, CT 06355
