Total Summary Data on Consumption of All Controlled ODSs (All Annex Groups) *74*

Introduction

1. This report summarizes data on production and consumption of ozone-depleting substances as of 31 October 2005, reported by the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer under Article 7 of the Protocol.

2. The first edition of this report was issued in 1997, on the occasion of the 10th anniversary of the adoption of the Montreal Protocol. An updated version was published in 2002 containing data reported by the Parties for the period 1986 to 2000. The present report contains additional and updated data on the production and consumption of ozone-depleting substances (ODS), as reported to the Secretariat during the period 1986-2004, by 188 of the 189 Parties to the Montreal Protocol. The Secretariat has arranged the data provided by the Parties into groups for which control measures are prescribed in the Protocol.

3. The substances subject to reporting requirements and control measures are as follows:

   (a) Annex A, Group I: chlorofluorocarbons (CFCs) and Group II: halons *(reporting obligations and control measures introduced in the original Montreal Protocol, 1987)*;

   (b) Annex B, Group I: other fully halogenated CFCs, Group II: carbon tetrachloride and Group III: methyl chloroform *(reporting obligations and control measures introduced in the London Amendment to the Montreal Protocol, 1990)*;

   (c) Annex C, Group I: hydrochlorofluorocarbons (HCFCs) *(reporting obligations introduced in the London Amendment to the Montreal Protocol, 1990, but to control measures introduced by the Copenhagen Amendment to the Montreal Protocol, 1992);*

   (d) Annex C, Group II: hydrobromofluorocarbons (HBFCs) *(reporting obligations and control measures introduced in the Copenhagen Amendment to the Montreal Protocol, 1992)*;

   (e) Annex C, Group III: bromochloromethane (BCM) *(reporting obligations and control measures introduced in the Beijing Amendment to the Montreal Protocol, 1999)*;

   (f) Annex E, Group I: methyl bromide (MBr) *(reporting obligations and control measures introduced in the Copenhagen Amendment to the Montreal Protocol, 1992).*

4. The list of controlled substances under the Montreal Protocol, as well as the summary of the control measures applicable at the time of preparing this report follow this introduction. However, for an authoritative interpretation of the control measures, please refer to the relevant provisions of the Montreal Protocol.

5. Depending on the dates of ratification for the Protocol and Amendments, Article 7 of the Montreal protocol requires each Party to report data for the base year of the specific annex and for each year beginning with the year in which the Protocol or the Amendment entered into force for that Party. The ratification of amendments has proceeded steadily and by 31 October 2005, 189 Parties have ratified the Montreal Protocol, 179 the London Amendment, 168 the Copenhagen Amendment, 134 the Montreal Amendment and 97 the Beijing Amendment. The definition of a state not Party to the Montreal Protocol is contained in Article 4, paragraph 9 of the Protocol.

6. In the tables of the report, not all groups of controlled substances will have figures for each country for the different years. One reason is that Parties are required to report, and are bound by the control measures, for only those substances controlled by the Protocol and/or Amendments that they have ratified. Further, the obligation to report data starts from the year in which a particular ratification enters into force for a Party.

7. In the data presented in the annexes of this report, a hyphen (–) has been used where Parties have not reported and are not required to report data while the abbreviation N.R. (not reported) is used where Parties are required to report but have not done so.

8. Only Parties that have reported production of a certain substance or group of substances, or a Party with a non-zero calculated production for a given group of substances, will show up in the respective production table in this report. The tables of the report include, for each Party, the date of ratification of the Montreal Protocol and/or the relevant Amendment of the Protocol. The tables also include subtotals for Article 5 Parties (developing countries) and Non-Article 5 Parties (developed countries), as well as totals, for each year for each annex group.

9. The calculated production and consumption figures are based on formulae derived by applying the provisions of the Montreal Protocol. To calculate the figures for each group, the quantities in metric tonnes reported by the Parties for each substance in the group are multiplied by the ozone-depleting potential (ODP) of that substance and added together, after which adjustments are made based on the Protocol. All the data in this report is therefore presented in ODP tonnes.

10. Some of the calculated production or consumption figures may be negative. Production has been defined under Article 1(5) of the Protocol as production minus the amount destroyed minus the amount entirely used as feedstock in the manufacture of other chemicals. Process agent applications are treated in a manner similar to feedstock applications for non-Article 5 Parties, hence they are also deducted (decisions VII/10 and X/14 of the Meeting of the Parties). Calculated production may therefore be negative in cases where the destroyed amounts exceed the production. Since the figures are for each calendar year, it is quite possible that in some years the feedstock figure may exceed the production figure of that year, if the feedstock use is from a carry-over stock. The calculated production could be negative in such cases.

11. Consumption is defined as production plus imports minus exports of controlled substances (Article 1(6) of the Montreal Protocol). For reasons similar to those for calculated production, such as the case of exports from carry-over stock, the consumption could also be negative.

12. The Ninth Meeting of the Parties approved new formats for reporting data under Article 7 of the Protocol. The old data formats used by the Parties to report data were replaced, and beginning 1997 onwards, the revised formats have been used. To assist the Parties in providing the data as required by the revised formats, the *Handbook on Data Reporting under the Montreal Protocol* was prepared and distributed to all Parties by United Nations Environment Programme – Division of Technology, Industry and Economics (UNEP-TIE). This handbook is also available on the web at the address http://www.uneptie.org/ozonaction.

13. The Secretariat hopes that this publication will be of interest to many readers and would be grateful for any suggestions on ways of improving the format of the presentation or for any corrections. The Secretariat will prepare an update of this publication periodically, taking into account any suggestions received.

List of Controlled Substances under the Montreal Protocol

Annex A: **Controlled substances**

Group	Substance	Ozone-Depleting Potential*
Group I		
$CFCl_3$	(CFC-11)	1.0
CF_2Cl_2	(CFC-12)	1.0
$C_2F_3Cl_3$	(CFC-113)	0.8
$C_2F_4Cl_2$	(CFC-114)	1.0
C_2F_5Cl	(CFC-115)	0.6
Group II		
CF_2BrCl	(halon-1211)	3.0
CF_3Br	(halon-1301)	10.0
$C_2F_4Br_2$	(halon-2402)	6.0

* These ozone depleting potentials are estimates based on existing knowledge and will be reviewed and revised periodically.

Annex B: **Controlled substances**

Group	Substance	Ozone-Depleting Potential
Group I		
CF_3Cl	(CFC-13)	1.0
C_2FCl_5	(CFC-111)	1.0
$C_2F_2Cl_4$	(CFC-112)	1.0
C_3FCl_7	(CFC-211)	1.0
$C_3F_2Cl_6$	(CFC-212)	1.0
$C_3F_3Cl_5$	(CFC-213)	1.0
$C_3F_4Cl_4$	(CFC-214)	1.0
$C_3F_5Cl_3$	(CFC-215)	1.0
$C_3F_6Cl_2$	(CFC-216)	1.0
C_3F_7Cl	(CFC-217)	1.0
Group II		
CCl_4	carbon tetrachloride	1.1
Group III		
$C_2H_3Cl_3$*	1,1,1-trichloroethane* (methyl chloroform)	0.1

* This formula does not refer to 1,1,2-trichloroethane.

Annex C: Controlled substances

Group	Substance	Number of isomers	Ozone-Depleting Potential*

$C_3H_5F_2Br$		9	0.07–0.8
C_3H_6FBr		5	0.02–0.7
Group III			
CH_2BrCl	bromochloromethane	1	0.12

* Where a range of ODPs is indicated, the highest value in that range shall be used for the purposes of the Protocol. The ODPs listed as a single value have been determined from calculations based on laboratory measurements. Those listed as a range are based on estimates and are less certain. The range pertains to an isomeric group. The upper value is the estimate of the ODP of the isomer with the highest ODP, and the lower value is the estimate of the ODP of the isomer with the lowest ODP.

** Identifies the most commercially viable substances with ODP values listed against them to be used for the purposes of the Protocol.

Annex E: **Controlled substance**

Group	Substance	Ozone-Depleting Potential
Group I		
CH_3Br	methyl bromide	0.6

Summary of Control Measures under the Montreal Protocol

Article 5 Parties Summary of Control Measures

Substances Group	Annex Group	Years and the applicable control measures (% change is relative to corresponding baseline*)																		
		1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2040
CFCs	A/I	Freeze						-50%		-85%			-100% (Phase-out)							
Halons	A/II				Freeze			-50%					-100% (Phase-out)							
Other CFCs	B/I					-20%				-85%			-100% (Phase-out)							
CCl_4 (CTC)	B/II							-85%					-100% (Phase-out)							
Methyl Chloroform	B/III					Freeze		-30%					-70%					-100% (Phase-out)		
HCFCs Consumption	C/I																		Freeze	-100%
HCFCs Production	C/I																		Freeze	
HBFCs	C/II	Phased out in 1996																		
BCM	C/III				-100% (Phase-out)															
Methyl Bromide	E/I				Freeze			-20%										-100% (Phase-out)		

* **Annex A, Groups I and II** substances' baseline is the average of 1995–1997.
Annex B, Groups I, II and III substances' baseline is the average of 1998–2000.
Annex C, Group I substances baseline is 2015 for consumption. For production, the baseline is the average of production and consumption in 2015.
Annex C, Groups II and III substances were phased-out without intermediate reduction targets, hence there were no baselines established.
Annex E, Group I substance baseline is the average of 1995–1998.

Non-Article 5 Parties Summary of Control Measures

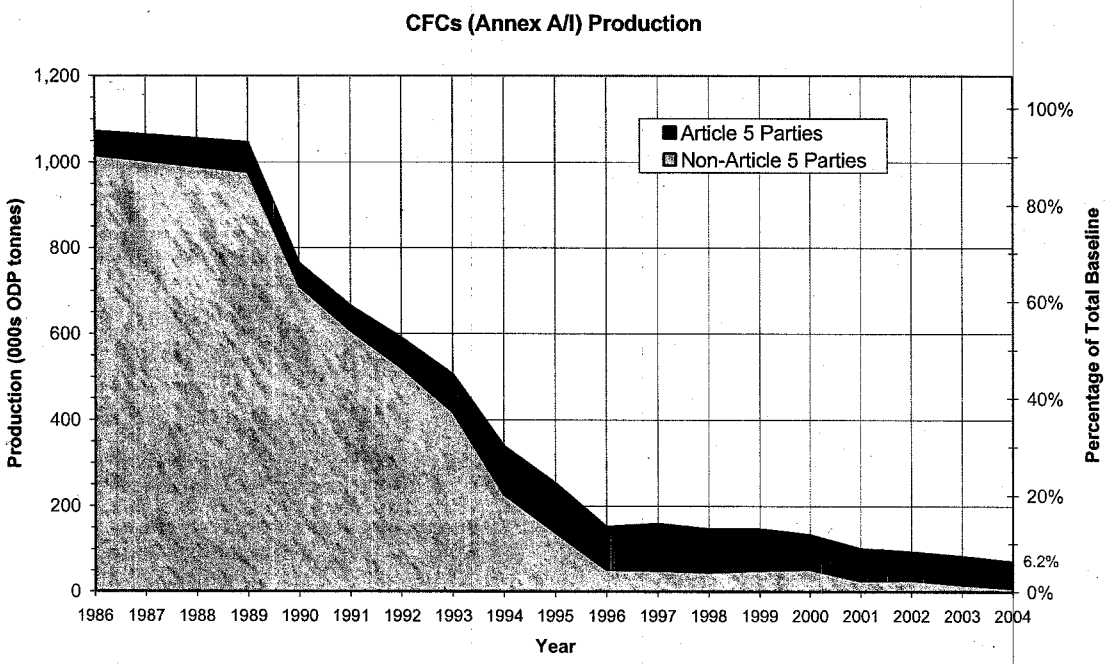
Substances Group	Annex Group	Years and the applicable control measures (% change is relative to corresponding baseline**)																
		1989	1992	1993	1994	1995	1996	1999	2001	2002	2003	2004	2005	2007	2010	2015	2020	2030
CFCs	A/I	Freeze			-75%		-100% (Phase-out)											
Halons	A/II		Freeze		-100% (Phase-out)													
Other CFCs	B/I			-20%	-75%		-100% (Phase-out)											
CCl_4 (CTC)	B/II					-85%	-100% (Phase-out)											
Methyl Chloroform	B/III			Freeze	-50%		-100% (Phase-out)											
HCFC consumption	C/I						Freeze					-35%			-65%	-90%	-99.5%	-100% (Phase-out)
HCFC production	C/I											Freeze						
HBFCs	C/II						-100% (Phase-out)											
BCM	C/III									-100% (Phase-out)								
Methyl Bromide	E/I					Freeze		-25%	-50%		-70%		-100% (Phase-out)					

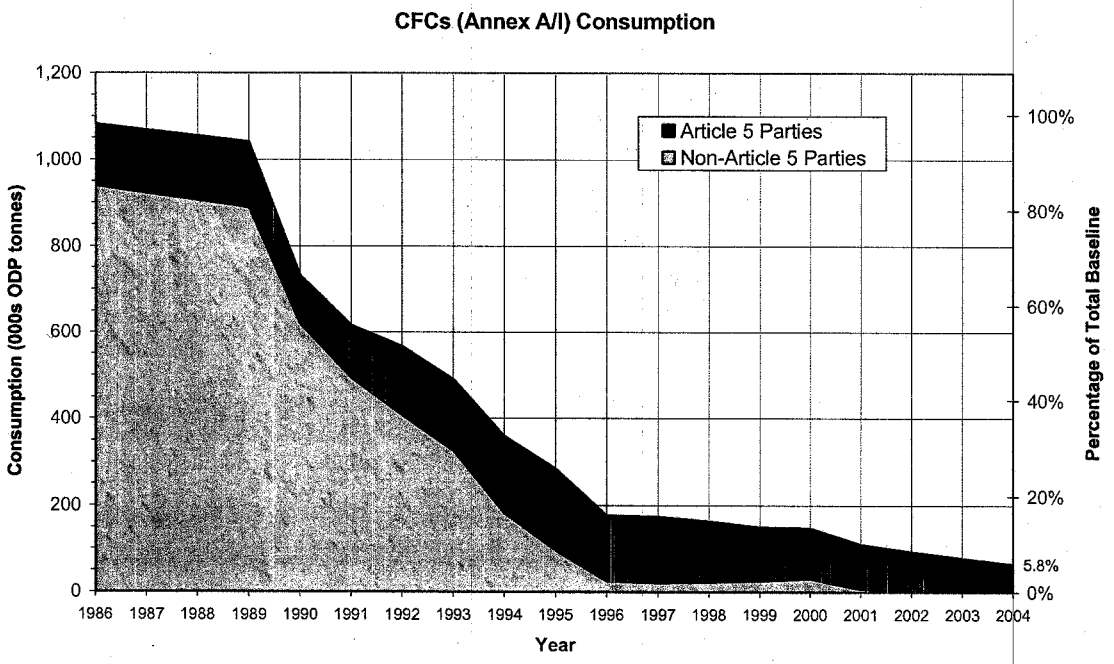
** **Annex A, Groups I and II** substances' baseline is 1986.
Annex B, Groups I, II and III substances' baseline is 1989.
Annex C, Group I substances consumption baseline is 1989 HCFC consumption + 2.8 per cent of 1989 CFC consumption.
Annex C, Group I substances production baseline is Average of 1989 HCFC production + 2.8 per cent of 1989 CFC production and 1989 HCFC consumption + 2.8 per cent of 1989 CFC consumption.
Annex C, Groups II and III substances were phased-out without intermediate reduction targets, hence there were no baselines established.
Annex E, Group I substance baseline is 1991.

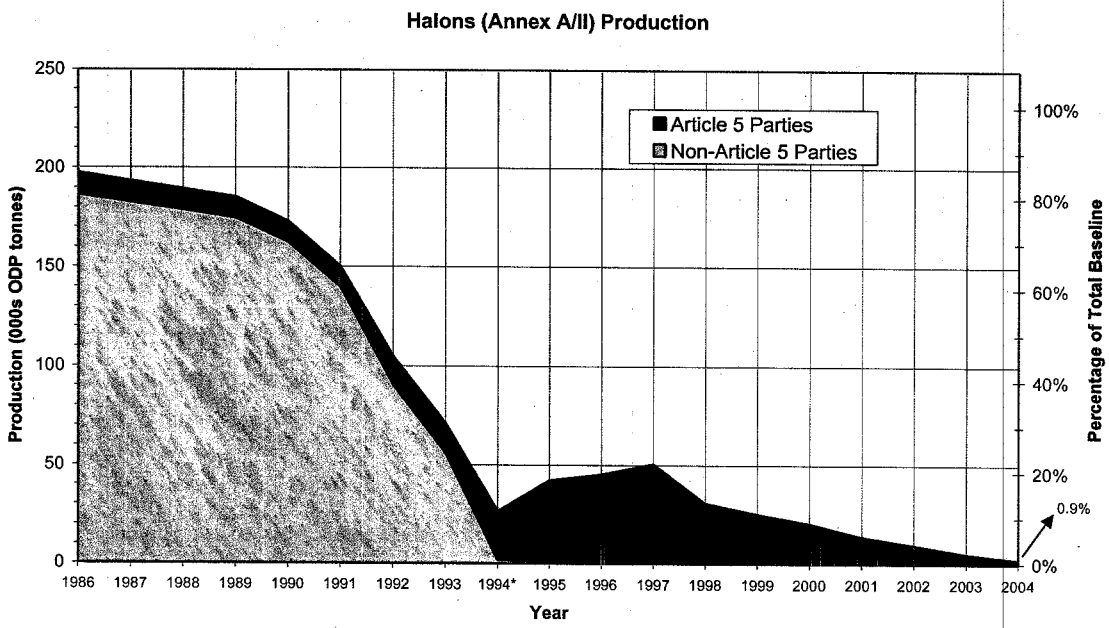
Calculated Production = (Production – Feedstock Production – Feedstock Exports – Quarantine Production (both internal and for export)) – Destroyed

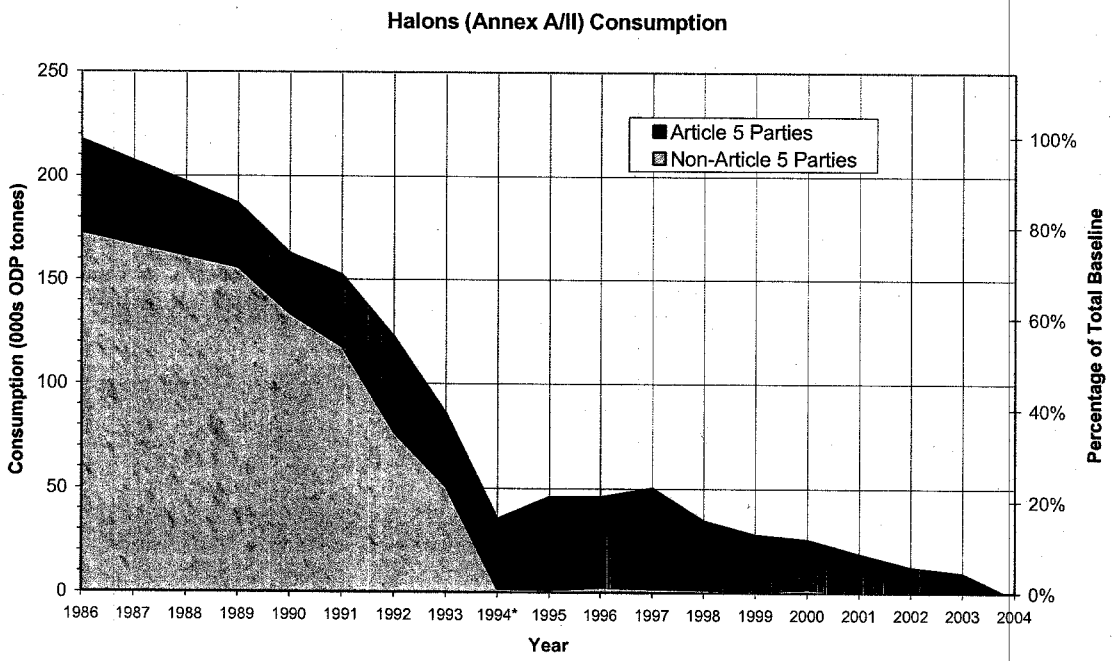
Calculated Consumption = (Production – Feedstock Production – Quarantine Production) + (Imports – Feedstock Imports – Quarantine Imports) – (Exports – Quarantine Exports) – Destroyed + Non Party Exports

Production and Consumption trends

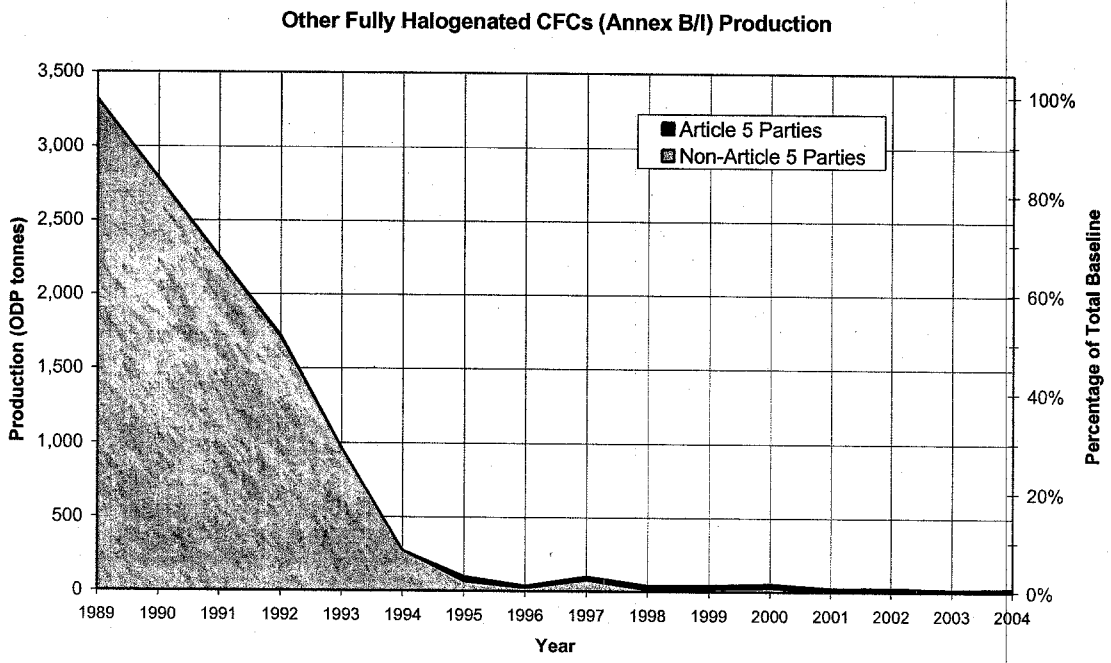


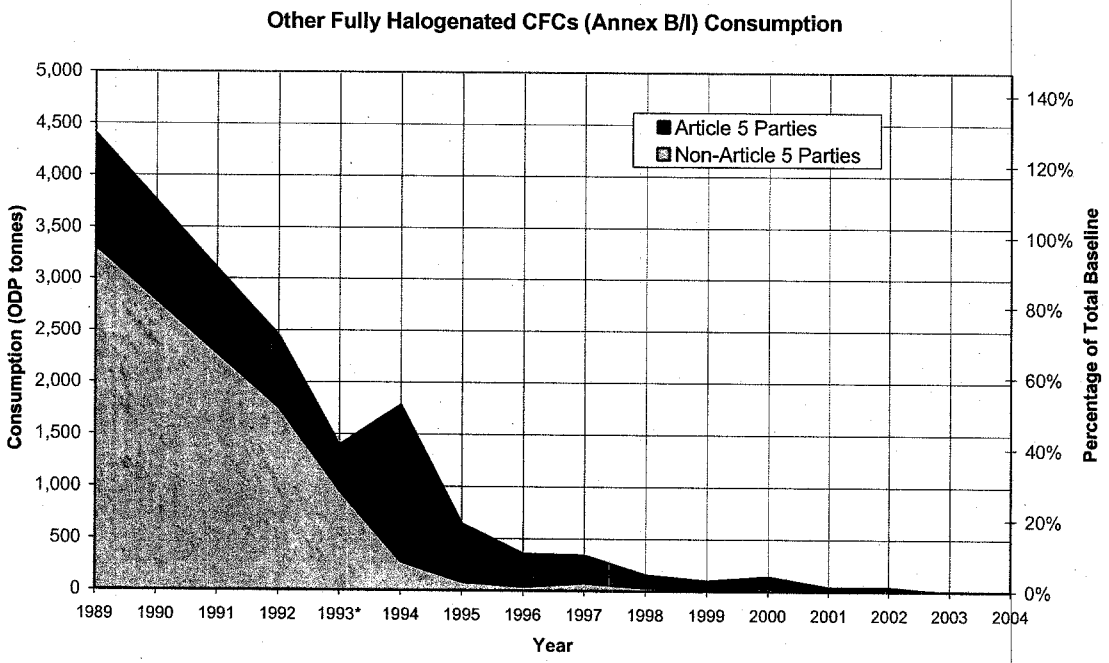




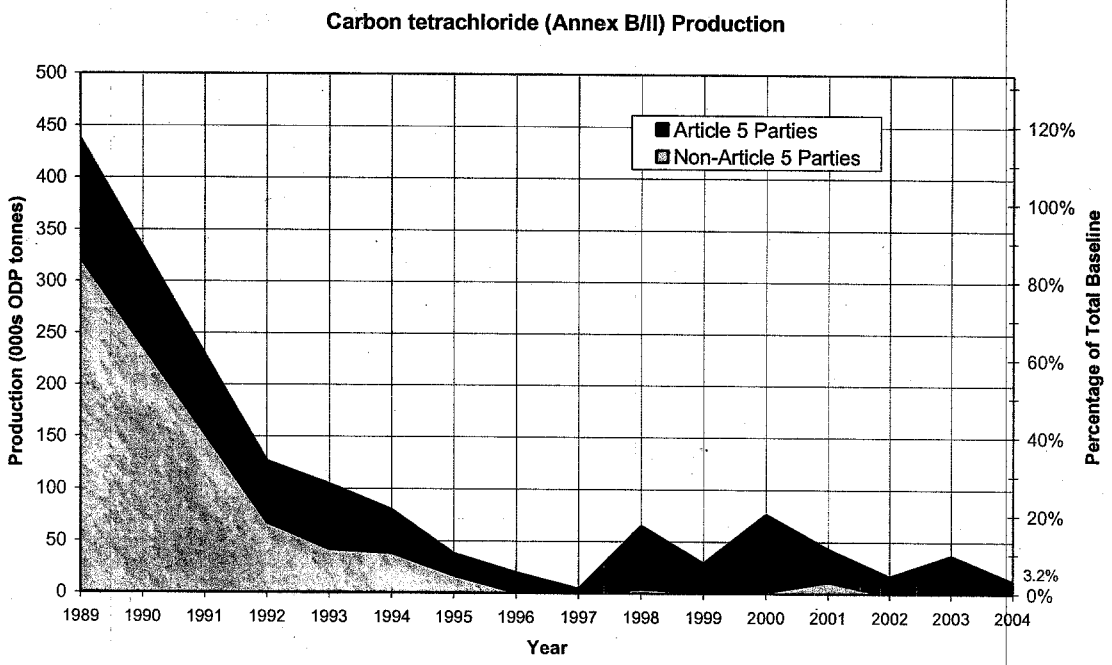


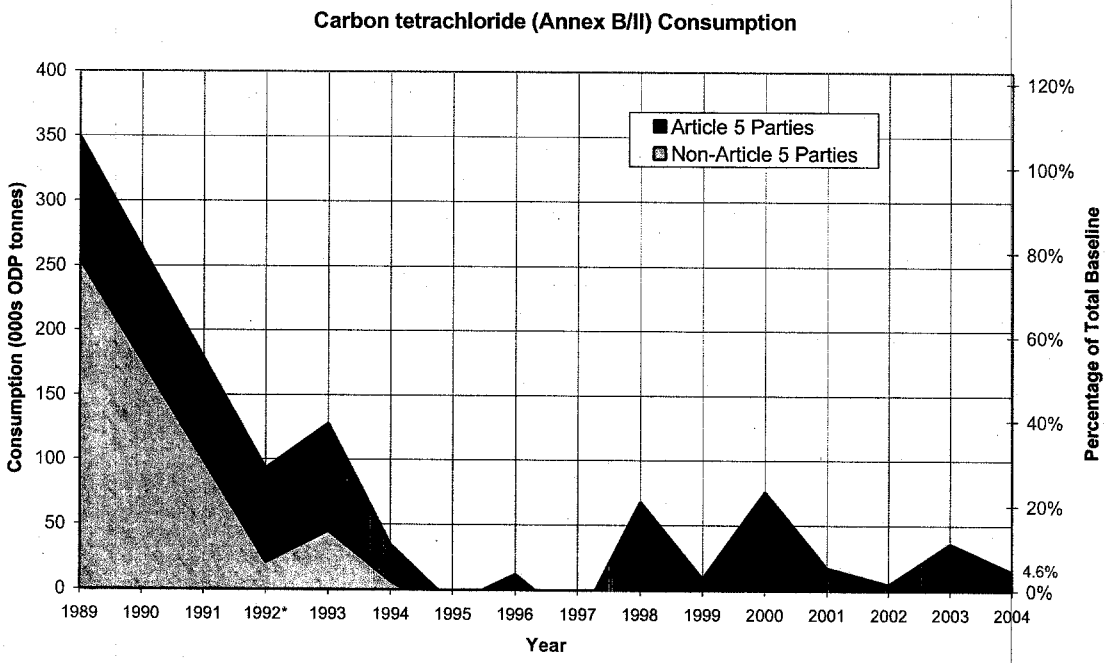
* The apparent dip in the trend may be attributed partly to lower reporting levels especially by Article 5 Parties since the obligation to report covers the base year (1986), the baseline years (1995 to 1997) and the year from which the Protocol enters into force for each Party. Thus the number of ratifications was lower in the earlier years of the Protocol.



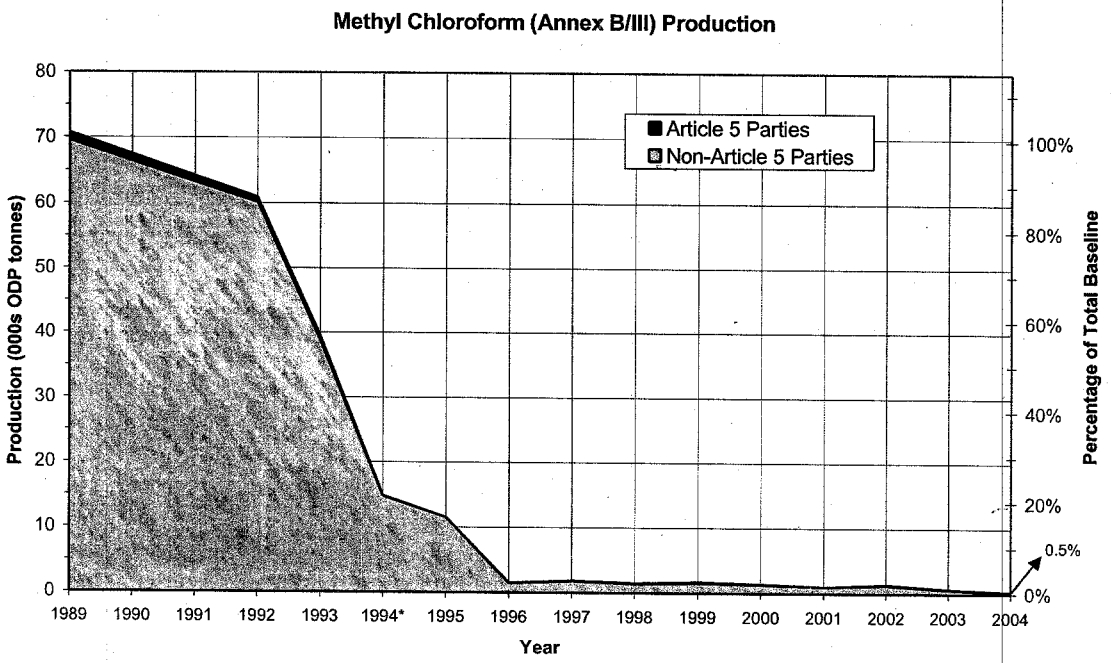


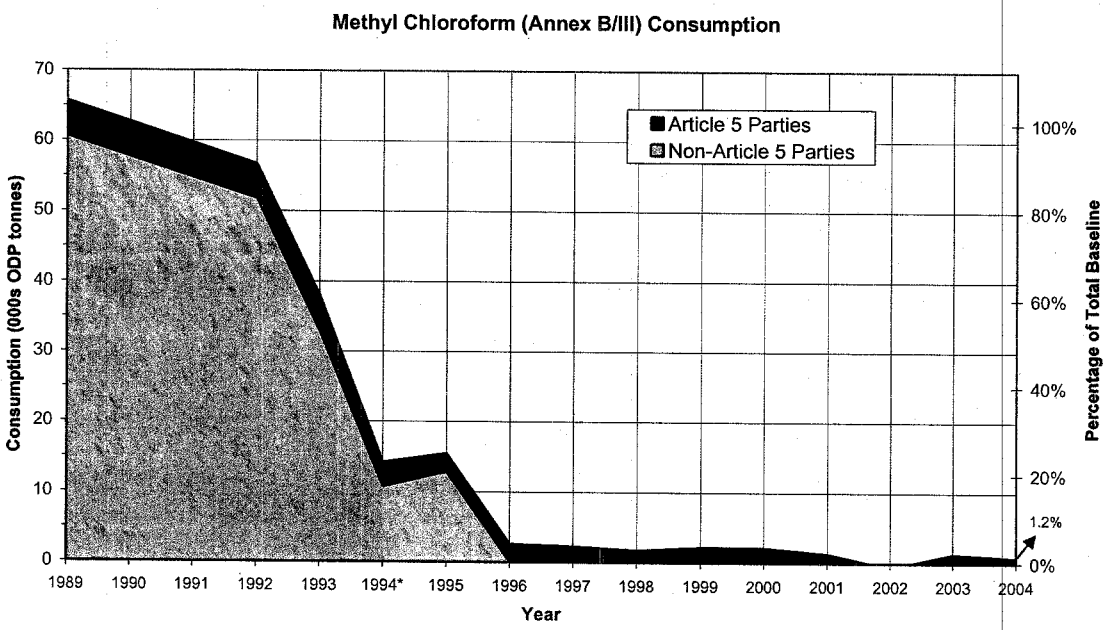
* The apparent dip in the trend may be attributed partly to lower reporting levels especially by Article 5 Parties since the obligation to report covers the base year (1989), the baseline years (1998 to 2000) and the year from which the London Amendment enters into force for each Party. Thus the number of ratifications was lower in the earlier years of the amendment.



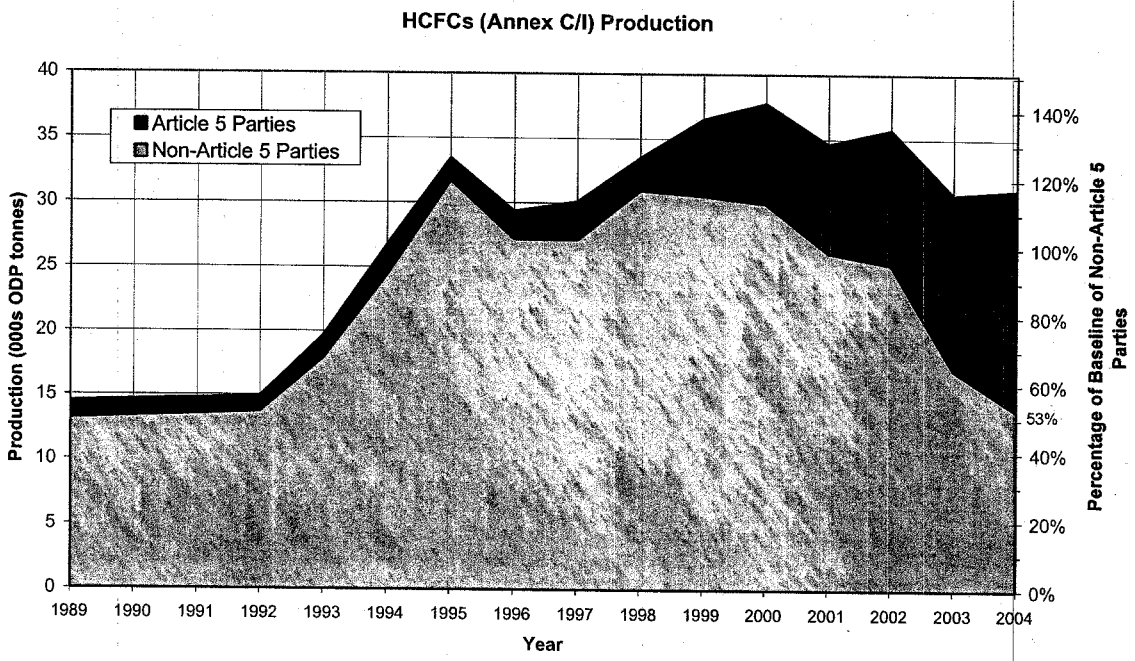


* The apparent dip in the trend may be attributed partly to lower reporting levels especially by Article 5 Parties since the obligation to report covers the base year (1989), the baseline years (1998 to 2000) and the year from which the London Amendment enters into force for each Party. Thus the number of ratifications was lower in the earlier years of the amendment.

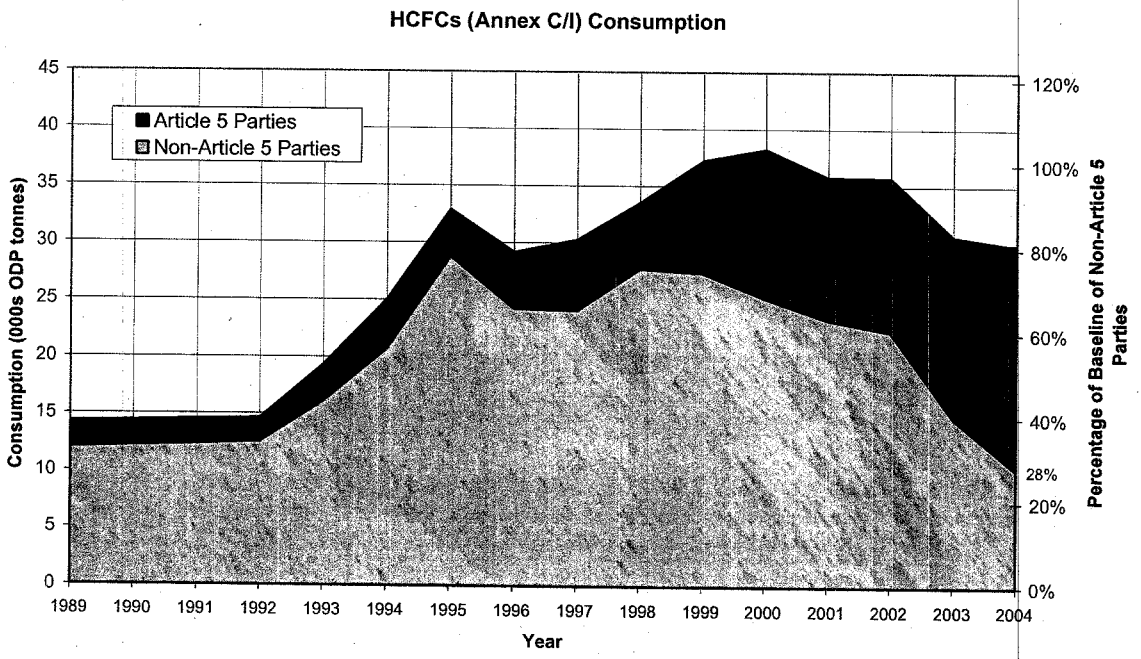




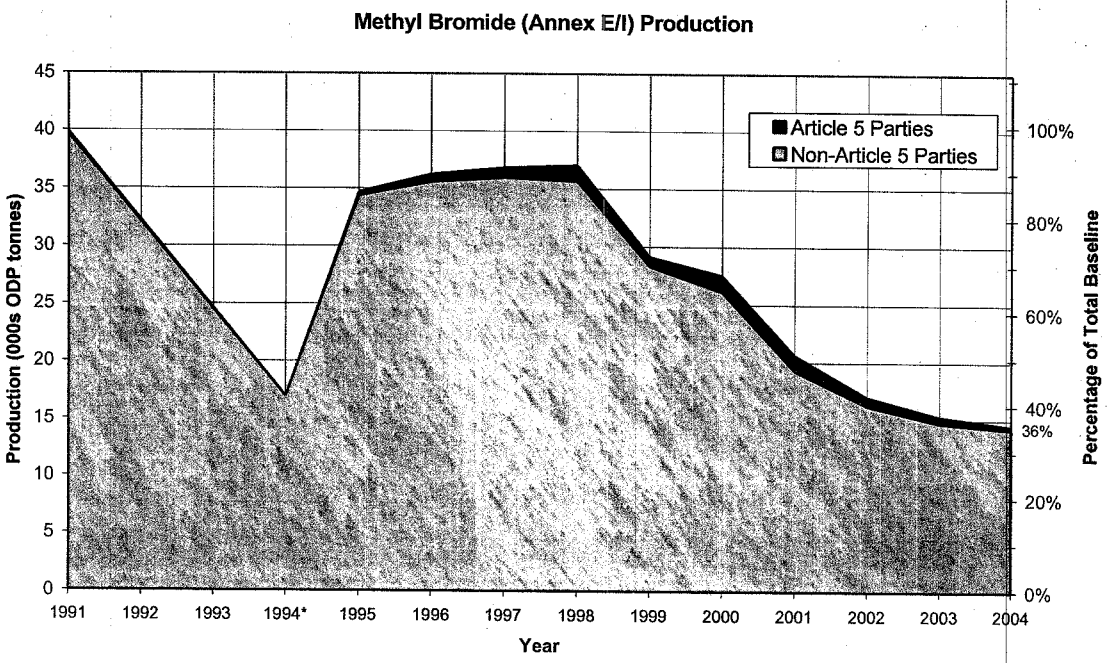
* The apparent dip in the trend may be attributed partly to lower reporting levels especially by Article 5 Parties since the obligation to report covers the base year (1989), the baseline years (1998.to 2000) and the year from which the London Amendment enters into force for each Party. Thus the number of ratifications was lower in the earlier years of the amendment.

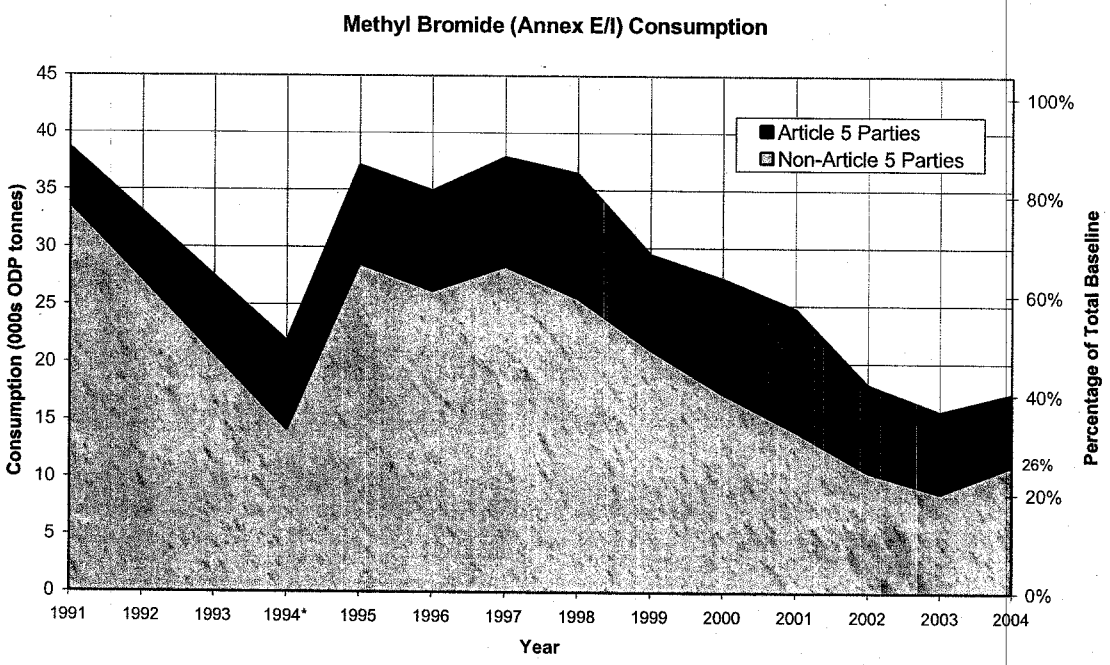


HCFCs (Annex C/I) Production
Article 5 Parties
Non-Article 5 Parties
Production (000s ODP tonnes)
Percentage of Baseline of Non-Article 5 Parties
Year
53%

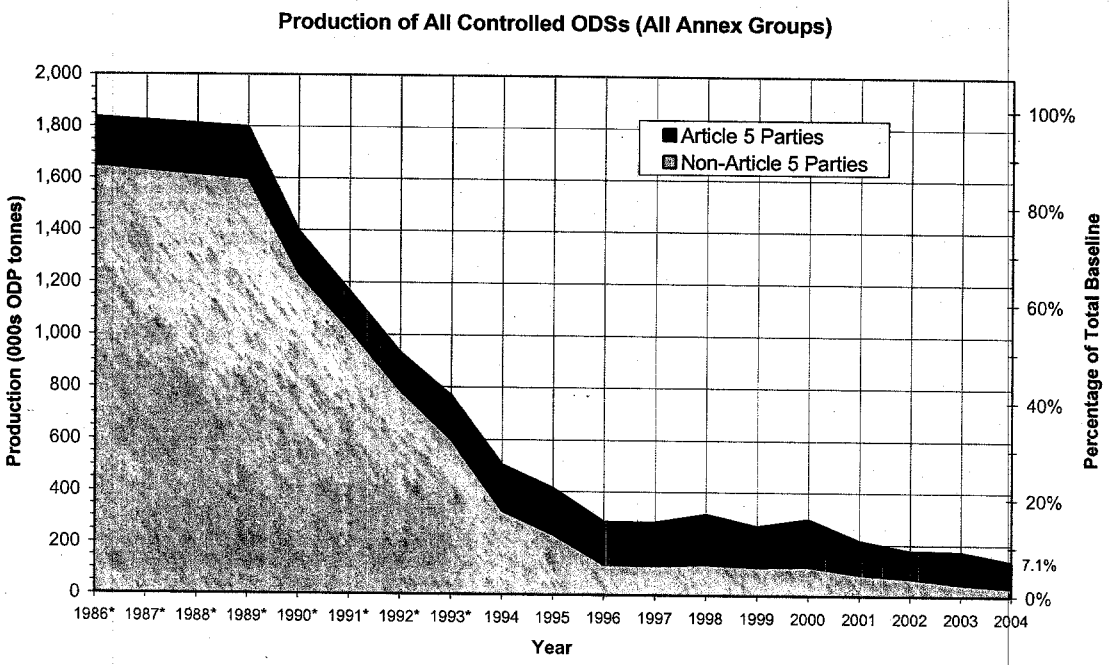


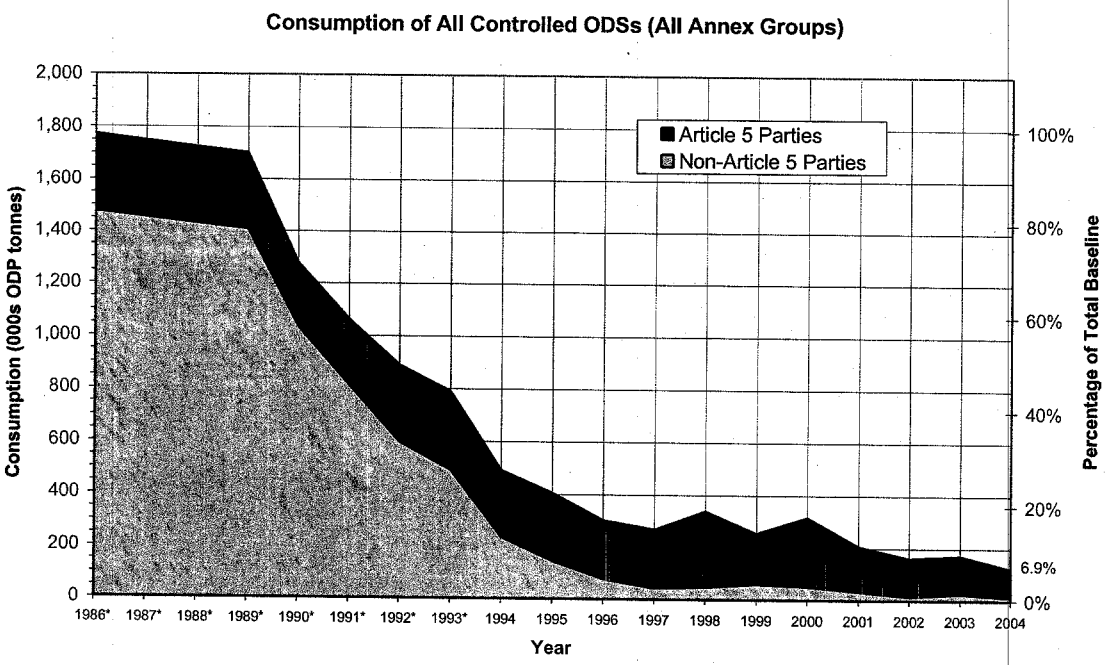
HCFCs (Annex C/I) Consumption
Article 5 Parties
Non-Article 5 Parties
Consumption (000s ODP tonnes)
Percentage of Baseline of Non-Article 5 Parties
Year
28%





* The apparent dip in the trend may be attributed partly to lower reporting levels especially by Article 5 Parties since the obligation to report covers the base year (1991), the baseline years (1995 to 1998) and the year from which the Copenhagen Amendment enters into force for each Party. Thus the number of ratifications was lower in the earlier years of the amendment.





* Production and Consumption for years preceding the base year has been assumed to be constant at the base year level for substances in Annexes B, C and E, whose respective base years are 1989, 1989 and 1991.

Information on CFC Production Sector Agreements with the Multilateral Fund

The following table includes information taken from Executive Committee agreements as included in reports of the Executive Committee. The information outlines the agreement of related countries to limit their production of CFCs to the levels indicated in the table in the specified years. This table is provided for information only, and is current to October 2005.

Article 5 Parties	2005	2006	2007	2008	2009	2010
Argentina (LAC)	1,647	1,647	686	686	686	0*
China (ASIA)	18,750	13,500	7,400**	550	550	0*
Democratic People's Republic of Korea (ASIA)	0	0	0	0	0	0
India (ASIA)	11,294	7,342	3,389	2,259	1,130	0*
Mexico (LAC)	5,262***	0	0	0	0	0*
Venezuela (Bolivarian Republic of) (LAC)	2,913	2,913	0	0	0	0
Subtotal (Article 5 - Annex A, Group I)	**39,866**	**25,402**	**11,475**	**3,495**	**2,366**	**0**

* Save for any CFC production that might be agreed by the parties to meet essential uses for the stated Party.

** Production level based on Montreal Protocol plus 10% allowed for basic domestic needs.

*** In its agreement with the Executive Committee, Mexico agreed to produce not more then 22,000 ODP tonnes of CFCs during the years 2003, 2004, and 2005 combined, In fact, Mexico closed its CFC production facility in September of 2005 - and the 5,262 included in the table for 2005 above is indicative only, and represents the maximum remaining production allowable in 2005 consistent with the agreement.

NB: Production in Brazil ceased in 2000 without assistance from the Multilateral Fund.

AFR = Africa ASIA = Asia EEUR = Eastern Europe CEIT = Country with Economy in Transition
LAC = Latin America and the Caribbean WEUR = Western Europe and Others EC = Member of the European Community

* European Community (EC) figures before 1995 contain data reported for the 12 members of the community at the time, namely Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and United Kingdom of Great Britain and Northern Ireland. Figures for 1995 to 2003 cover 15 members of the EC, the 3 new members of the EC being Austria, Finland and Sweden that joined the EC in 1995. Figures for 2004 are for 25 members, which include the further 10 new members of the EC (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) that joined the EC in 2004.

N.R. Not reported: is used where Parties are required to report but have not done so.
– Hyphen: is used where Parties have not reported and are not required to report.
NB: Figures are rounded to a uniform number of decimal places.

* European Community (EC) figures before 1995 contain data reported for the 12 members of the community at the time, namely Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and United Kingdom of Great Britain and Northern Ireland. Figures for 1995 to 2003 cover 15 members of the EC, the 3 new members of the EC being Austria, Finland and Sweden that joined the EC in 1995. Figures for 2004 are for 25 members, which include the further 10 new members of the EC (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) that joined the EC in 2004.

N.R. Not reported: is used where Parties are required to report but have not done so.
– Hyphen: is used where Parties have not reported and are not required to report.
NB: Figures are rounded to a uniform number of decimal places.

* European Community (EC) figures before 1995 contain data reported for the 12 members of the community at the time, namely Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and United Kingdom of Great Britain and Northern Ireland. Figures for 1995 to 2003 cover 15 members of the EC, the 3 new members of the EC being Austria, Finland and Sweden that joined the EC in 1995. Figures for 2004 are for 25 members, which include the further 10 new members of the EC (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) that joined the EC in 2004.

N.R. Not reported: is used where Parties are required to report but have not done so.
– Hyphen: is used where Parties have not reported and are not required to report.
NB: Figures are rounded to a uniform number of decimal places.

* European Community (EC) figures before 1995 contain data reported for the 12 members of the community at the time, namely Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and United Kingdom of Great Britain and Northern Ireland. Figures for 1995 to 2003 cover 15 members of the EC, the 3 new members of the EC being Austria, Finland and Sweden that joined the EC in 1995. Figures for 2004 are for 25 members, which include the further 10 new members of the EC (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) that joined the EC in 2004.

N.R. Not reported: is used where Parties are required to report but have not done so.
– Hyphen: is used where Parties have not reported and are not required to report.
NB: Figures are rounded to a uniform number of decimal places.

* European Community (EC) figures before 1995 contain data reported for the 12 members of the community at the time, namely Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and United Kingdom of Great Britain and Northern Ireland. Figures for 1995 to 2003 cover 15 members of the EC, the 3 new members of the EC being Austria, Finland and Sweden that joined the EC in 1995. Figures for 2004 are for 25 members, which include the further 10 new members of the EC (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) that joined the EC in 2004.

N.R. Not reported: is used where Parties are required to report but have not done so.
– Hyphen: is used where Parties have not reported and are not required to report.
NB: Figures are rounded to a uniform number of decimal places.

* European Community (EC) figures before 1995 contain data reported for the 12 members of the community at the time, namely Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and United Kingdom of Great Britain and Northern Ireland. Figures for 1995 to 2003 cover 15 members of the EC, the 3 new members of the EC being Austria, Finland and Sweden that joined the EC in 1995. Figures for 2004 are for 25 members, which include the further 10 new members of the EC (Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia) that joined the EC in 2004.

N.R. Not reported: is used where Parties are required to report but have not done so.
– Hyphen: is used where Parties have not reported and are not required to report.
NB: Figures are rounded to a uniform number of decimal places.
