1/18/2001

Dear Sir.

I writing about the Downed animals. The marketing & slaughter of downed animals is discusting.

There is a risk of tactical contamination.

Experts estimated 90% of downed animal can be prevented with better care. Its discusting to move downed animal with tractors or dragged with chains

Please grant a petition 98P-0151/CP1 to prohibit slaughter of downed animals

Sincerely
Jean Bartkiewicz
