I am writing to strongly urge the FDA to grant petition 98P-0151/CP1 that will prohibit the slaughter of downed animals. These animals are too sick + injured even to stand - they need to be treated humanely. They have no business being in the food chain -+ they comprise a very small percentage of all animals slaughtered - so not marketing them will cause no undue hardship -

Treating animals humanely is very important to many Americans - Please give this top consideration. Thank you, D. Monroe
